

# MARSH'S Floribunda or Sweetheart ROSES

The floribunda rose group has steadily increased in importance during the past ten years until now it rivals the hybrid teas in a great many gardens. This trend is very gratifying to us because we have long been leaders in this field, not only offering a long list of the better floribundas from all sources, but also providing new patented varieties ourselves to swell the total and broaden the range of colors and flower types. We call particularly to your attention the six Marsh floribundas offered in the collection just below.

# **Exclusive Marsh Floribundas**

# **RED CECILE BRUNNER**

#### (Pasadena Tournament)

(Pat. 578) Named for the world-famous Tournament of Roses at Pasadena, this fine floribunda is the perfect red counterpart of the familiar Sweetheart Rose, Cecile Brunner. Small, dainty, bright red buds, and beautiful velvety red open flowers. In the garden Pasadena Tournament makes a compact small to medium sized bush, well clothed in rich green foliage. Nearly thornless, it can be used in masses close to walks without danger of torn clothing. See illustration on front cover. \$1.75 each, 3 for \$4.65.

## CLIMBING RED CECILE BRUNNER

#### (Climbing Pasadena Tournament)

(Pat. 797) A fine climber with the same practically thornless habit and dainty, deep red "Sweetheart" type buds which open to marvelously velvety textured flowers of fine form, high centers and with the same excellent keeping qualities so admired in the bush type. \$1.75 each, 3 for \$4.65.

#### LADY ANN KIDWELL

(Pat. 1226) It is another Sweetheart type similar to Pasadena Tournament and Red Sweetheart but distinct in the shape of bud and open flower. The delightful long buds with gracefully pointed petals of rich pink to almost red in cooler weather will take your attention. Growth upright to about 4 feet and the free flowering habit and fine healthy reddish tinted foliage densely covering the plant make this a fine addition to our list of floribunda roses. \$2.00 each, 3 for \$5.00.

#### RED SWEETHEART

(Pat. 577) Another Marsh introduction. Carmine red buds opening to rose red blooms. The flowers are slightly smaller than those of Pasadena Tournament when fully open. The buds make exquisite corsages, boutonnieres. \$1.75 each, 3 for \$4.65.

#### HONEY

(Pat. right reserved) A neat little semi-double floribunda, new last year. Plants grow 1 ½ feet high, and bear a continuous crop of chartreuse yellow buds which open to lemon-yellow flowers, turning to creamy lemon occasionally touched with pink. Appealing. \$2.00 each, 3 for \$5.25.

## **DENNY BOY**

(Pat. 1105) A new Marsh rose. The buds begin as bright yellow little jewels, and the opening flower is a creamy yellow. But each day the color changes-first a faint blush of ruddy orange, then a speckling of light pink, and as the days go by each flower evolves through darker pink, coral, cherry and finally to a deep ruby-red. And yet, where the magic of the sunlight failed to fall, the petals are still pale gold. Flowers are long-lasting, and the plants bloom steadily all season long. A superb, enduring cut flower, and a faultless hedge rose, Denny Boy is the finest and most unique floribunda you can grow. \$1.75 each, 3 for \$4.65.

One each of above 6-Regular \$11.00 value, for \$9.00 Postpaid.
